MEMORANDUM FOR

Commanders, All Units Reporting Directly to This Headquarters  
Commanders, Fort Knox Partners in Excellence  
Directors and Chiefs, Staff Offices/Departments, This Headquarters

SUBJECT: USAARMC Policy Memo No. 3-05 – Use of Pirated Software on Government Computers

1. Reference AR 25-2, Information Assurance, 14 November 2003.
2. Pirated software is still being found on computers on this installation. This problem requires our immediate, collective attention.
3. We must take actions to eliminate the use of unauthorized computer software. Besides being illegal, "Pirated" software exposes our computers to viruses, which can lead to the loss of valuable information. The only software authorized for use on government-owned computers is software written or purchased by the Government, distributed by higher headquarters, and specifically approved by the Directorate of Information Management for use at this installation.
4. Commanders will ensure that every soldier and civilian of this command understands that use of pirated computer software is illegal. The user, and possibly the Government, can be held equally liable.
5. If you have questions concerning your organization's computer software, contact the Installation Information Assurance Manager, 4-7201.

FOR THE COMMANDER:

  
KEITH A. ARMSTRONG  
Colonel, AR  
Garrison Commander
